

November 2-4, 2007

AAHKS Annual Meeting Poster Presentations

Poster Hours:

Friday, November 2

5:30 – 7:30 PM

Saturday, November 3

6:00 AM – 7:30 PM

Saturday, November 3

5:30 – 7:30 PM – Poster Reception

-
200. High Preoperative Glucose and Not Just Diabetes is an Independent Risk Factor for Pulmonary Embolism
Javad Parvizi, MD
201. Arthroscopic Indications for Unicompartmental Knee Replacement
Barry Waldman, MD
202. Early Failures of Unicompartmental Replacements
Lowry C. Barnes, MD
203. Contemporary Total Hip Arthroplasty for the Dysplastic Hip
Christopher Peters, MD
204. Non-gender Specific Total Knee Arthroplasty: A Review of 1,000 Cases Comparing Men and Women
Michael H. Bourne, MD
205. The Changing Organism Profile in Periprosthetic Infection
Javad Parvizi, MD
206. Learning Curve with Minimally Invasive Unicompartmental Arthroplasty
William G. Hamilton, MD
207. Metal-on-Metal Hip Resurfacing: Appropriate Patient Selection is Essential
D. Gordon Allan, MD
208. Differences in demographics, social history, resource utilization and health status by insurance payer group in an orthopaedic surgical practice
Kevin J. Bozic, MD
209. Cementless Acetabular Reconstruction in Revision Total Hip Arthroplasty: Evaluation at a Minimum of Twenty Years
Craig J. Della Valle, MD
210. Defining The Etiologies Of Premature Hip Joint Degeneration: Do Impingement Disorders Have A Role?
John C. Clohisy, MD
211. Total Knee Arthroplasty in Parkinson's Disease: A Protocol for Improved Extension
David Nazarian, MD

212. Progressive Subsidence Following THA Utilizing a Tapered, Proximally-coated Femoral Stem with Immediate Postoperative Weight-bearing
Cale A. Jacobs, PhD
213. Malseating of a Titanium-Encased Ceramic Liner in a Non-Hemispherical Cup During Total Hip Arthroplasty
Christian P. Christensen, MD
214. Fresh Osteochondral Allografting For Steroid-Induced Osteonecrosis of the Femoral Condyles
William Bugbee, MD
215. Incomplete Seating Of Press-Fit Porous Coated Acetabular Components – The fate of zone 2 radiolucencies
Bryan Springer, MD
216. How Easy is it to Revise a Failed Resurfacing of the Hip?
Harlan Amstutz, MD
217. Correlation of Visual Images and Audible Sound for THAs having Variable Bearing Surfaces
Diana Glaser
218. Enteric-coated Aspirin can be an Effective Component of Multimodal Anticoagulation Following Total Knee Arthroplasty
David Dalury, MD
219. Little Differences in Outcomes Between Genders Using a Contemporary Total Knee System
David Dalury, MD
220. Total Knee Arthroplasty Dislocation: Its Incidence, Why it Occurs, and How it is Resolved?
Lebel Benoit, MD
221. Metabolic Syndrome Increases the Risk for Pulmonary Embolism after Joint Arthroplasty
Javad Parvizi, MD
222. Gender Specific Total Knee Replacement Outcomes: An Analysis using Prospectively Collected Clinical Patient Data
Steven MacDonald, MD
223. Pathomorphologic Findings and Prearthrotic Deformities Predicting Osteoarthritis of the Hip Joint
Timo M. Ecker, MD
224. Incidence of Squeaking Following Alumina Ceramic-Ceramic Total Hip Arthroplasty
Timo M. Ecker, MD
225. Implant Wastage Cost during Joint Arthroplasty
C. Anderson Engh, MD
226. Introduction of the Oxford knee: Survivorship in First 600 Patients
Geoffrey F. Dervin, MD, MSc, FRCSC
227. Unicompartamental Knee Arthroplasty: What Are The Reasons for Early Failure?
Thorsten Seyler, MD

228. 20 year Follow up of the AGC Total Knee Replacement
Merrill Ritter, MD
229. Navigation In Total Knee Replacement Is It Worth It?
Carlos J. Lavernia, MD
230. THA and TKA Survivorship in the United States Medicare Population: Effect of Hospital and Surgeon Procedure Volume
Kevin Ong, MD
231. The Relationship Between Acetabular Osteolysis Volume and Cup-Lesion Interface Involvement in Cementless Total Hip Arthroplasty
Hiroshi Egawa, MD
232. Cementing Techniques for Hip Resurfacing Arthroplasty: An In-Vitro Study
Travis Loidolt
233. BMI More Predictive Of Post-TKR Activity Than Age or Gender
Travis Loidolt
234. Age and Gender are Predictors of Moderate to Severe Pain Post-TKA
Jasvinder Singh, MD
235. Are Mobile Bearing Knees Worth the Premium?: Mobile Bearing Knees Provide No Early Clinical Benefit at Minimum Five-Year Follow-Up
J. Bohannon Mason, MD
236. Patient Expectations at Initial Presentation for Arthroplasty: The Role of Gender and Ethnicity
Carlos Lavernia, MD
237. Variation in Postoperative Pelvic Tilt May Confound the Accuracy of Contemporary Hip Navigation Systems
Marc Pagnano, MD
