

FOCAL Webinar:

Management of Periprosthetic Fractures Around the Knee and the Role of TKA for Acute Geriatric Knee Fractures

Day: Monday, Oct. 26, 2020

Time: 4:00 Pacific / 8:00 Eastern

Agenda:

1. **Review of Literature:** ORIF vs. DFR for Periprosthetic Distal Femur Fractures
Jesse Wolfstadt, MD, MSc, FRCSC – *University of Toronto*
2. **Case Review & Tips/Tricks:** ORIF of Periprosthetic Knee Fractures
Amir Khoshbin, MD, MSc, FRCSC – *University of Toronto*
3. **Case Review & Tips/Tricks:** Revision Arthroplasty of Periprosthetic Knee Fractures
Cara A. Cipriano, MD, MS – *Washington University, St. Louis*
4. **Review of Literature:** ORIF vs. DFR for Native Geriatric Knee Fractures
David Backstein, MD, MEd, FRCSC – *University of Toronto*
5. **Discussion / Q+A**
All faculty

Faculty Biographies

Jesse Wolfstadt, MD, MSc, FRCSC

University of Toronto

Dr. Wolfstadt is an arthroplasty surgeon at Mount Sinai Hospital and Women's College Hospital. He is an assistant professor in the Department of Surgery and an Assistant Professor (Cross-Appointment) with the Institute of Health Policy, Management and Evaluation (IHPE) at the University of Toronto. He received his MD from U of T in 2011, completed a residency in orthopaedic surgery at U of T in 2016, and graduated in 2017 with a Master's Degree in Quality Improvement and Patient Safety at the Institute for Health Policy, Management, and Evaluation (IHPE). He completed fellowships in complex adult lower extremity reconstruction (Mount Sinai Hospital), traumatology and arthroplasty (St. Michael's Hospital), and traumatology (Auckland City Hospital, Auckland, New Zealand), and the U.S. Department of Veterans Affairs National Quality Scholars Fellowship Program (NQSFP). His clinical focus is on complex primary and revision total knee replacement and his research focuses on improving the efficiency and quality of care for joint replacement and trauma patients through interprofessional and patient-centered co-design.

Amir Khoshbin, MD, MSc, FRCSC

University of Toronto

Dr. Amir Khoshbin specializes in lower extremity trauma and adult reconstructive surgery of the hip and knee. He attended the University of Toronto for his undergraduate and medical education. Dr. Khoshbin completed his residency at the University of Toronto, where he was part of the Surgeon Scientist Program and received his Master of Science in clinical epidemiology. After residency, Dr. Khoshbin completed a trauma fellowship in Boston. Thereafter, he completed a second fellowship in Adult Reconstruction and Joint Replacement at the Hospital for Special Surgery in New York City. Dr. Amir Khoshbin joined St. Michael's Hospital at the University of Toronto as an attending faculty in 2017.

Cara A. Cipriano, MD, MS

Washington University, St. Louis

Dr. Cipriano specializes in Musculoskeletal Oncology and Adult Reconstruction at Washington University in St. Louis. She is the Director of Medical Student Education & Engagement for the Department of Orthopedic Surgery, as well as a member of the Musculoskeletal Tumor Society's Education Committee and the American Association of Hip and Knee Surgeons' Women in Arthroplasty Committee.

David Backstein, MD, MEd, FRCSC

University of Toronto

Dr. Backstein is currently an Associate Professor at the University of Toronto, head of the Gluskin Granovsky Division of Orthopaedics at Mount Sinai Hospital, and the Medical Lead & Chair at Mount Sinai Centre for MSK Disease. His focus is lower extremity arthroplasty with an emphasis on complex knee reconstruction. Other areas of focus include outcome studies and evaluation of new technologies.
