

AAHKS Webinar: Cemented Femoral Stem Fixation

Faculty Biographies

[Dr. Brian M. Curtin](#) completed medical school at Georgetown University in 2005 and orthopedic training at the University of Louisville in 2010. He then completed a one-year fellowship in Adult Reconstruction at OrthoCarolina in Charlotte, NC. Dr. Curtin then joined the orthopedic faculty at the Medical College of Virginia where he was named Clerkship Director for Orthopedics and helped train adult reconstruction fellows and residents in arthroplasty and trauma. Honors include several resident research awards, 2010 Gerhard Kuntscher Award, and Best Teaching Resident Nominee for the Journal of Trauma in 2008. He was also awarded the Max Kade Fellowship in plastic surgery in 2005 spending a month at the University of Vienna in Vienna, Austria. In early 2014, Dr. Curtin returned to OrthoCarolina as a member of the fellowship faculty and adjunct faculty with the

Carolina's Medical Center Orthopedic Surgery Department teaching arthroplasty to rotating residents. He is active with both the AAOS and AAHKS serving on several committees.

[Dr. Jonathan Howell](#) qualified in medicine in 1991 from King's College in London. As a medical student, he joined the Royal Air Force Medical Branch, where he trained as a junior surgeon, gaining the Fellowship of the Royal College of Surgeons in 1996. Dr. Howell completed his resident training in the South West, including six months of research with Professor Robin Ling OBE, which led to an MSc degree in Orthopaedic Engineering, awarded by Cardiff University. He further undertook fellowship training in complex and revision lower limb arthroplasty in Vancouver (2002) and Exeter (2003), following which he was appointed as a consultant in the Exeter Hip Unit in 2004. Dr. Howell specializes in complex and revision hip surgery and takes an active role in research and writing. He was a Clinical Director of Princess Elizabeth Orthopaedic Centre, Exeter 2018-

2021, and has been the Executive of the British Hip Society since 2011, serving as President 2020-2021.

[Dr. Matthew J.W. Hubble](#) is a Consultant Trauma and Orthopaedic Surgeon in Exeter, UK. He attended medical school at London University and trained in orthopaedics in Bristol and the South West, UK. He underwent fellowship training in Hip, Knee and Trauma Surgery at the Alfred Hospital and TAC Major Trauma Centre in Melbourne, Australia in 2000. He was appointed as a Consultant Surgeon at the Princess Elizabeth Orthopaedic Centre (PEOC) in Exeter in 2001 and was the lead clinician for Trauma surgery at the Royal Devon and Exeter Hospital 2009-12, then the Clinical Director of the PEOC from 2012-14. He is also the DI of the Exeter Bone Bank. Specializing in hip surgery, particularly primary, complex and revision total hip arthroplasty, Dr. Hubble also has expertise in hip fracture surgery, periprosthetic fractures and the management of bone metastases. His research

interests include the outcomes of THA, bone impaction grafting, the cement-in-cement technique in revision hip surgery, and hip fracture management. He is heavily involved in training and education as a faculty member of the Exeter Academy and of several national and international hip surgery courses.

A native of Brooklyn, N.Y., [Dr. Joseph T. Moskal](#) graduated with his B.A. (Phi Beta Kappa and Summa Cum Laude) from State University of New York at Binghamton, Binghamton, N.Y. After receiving his Doctor of Medicine from Washington University School of Medicine in St. Louis, MO, he completed a residency at the University of Virginia Medical Center and a fellowship in Adult Reconstructive and Total Joint Replacement at Cleveland Clinic, followed by an Orthopaedic Traumatology fellowship at the Maryland Institute for Emergency Medical Services System in Baltimore. Dr. Moskal joined the medical staff of Carilion Memorial Roanoke Hospital in 1988. Since becoming Chief of Orthopaedics in 2010, Dr. Moskal has been instrumental in expanding Orthopaedic Services. Dr. Moskal is currently chairman of the Department of Orthopaedic Surgery, chief of Adult

Reconstruction and fellowship director of the Adult Reconstruction (Hip and Knee) program at Carilion. He is also professor and chairman of the Department of Orthopaedic Surgery at the Virginia Tech Carilion School of Medicine and associate professor at University of Virginia Medical School and the Edward Via College of Osteopathic Medicine.

[Dr. Bryan D. Springer](#) is currently an attending Orthopaedic Surgeon at the OrthoCarolina Hip and Knee Center in Charlotte, NC, where he serves as the Adult Reconstruction Hip and Knee Fellowship Director and a Professor of Orthopaedic Surgery at the Atrium Musculoskeletal Institute. Dr. Springer is a member of the Knee Society and the Hip Society. Also, he currently serves as the Vice President at the American Association of Hip and Knee Surgeons (AAHKS) and the Chair of the American Joint Replacement Registry (AJRR). Dr. Springer is a past president of the Musculoskeletal Infection Society (MSIS). His academic interests focus on complex primary and revision total hip and knee arthroplasty, as well as management of infected total joint arthroplasty.
